Sir:

With regard to the above-identified application, herewith please find the
International Search Report which was received in the corresponding PCT

As will be noted, this PTO 1449 calls a number of references, which might be considered relevant, to the attention of the Examiner. The fact that these references are "Prior Art" is, however, not admitted.

Entry of this International Search Report, PTO 1449, and three (3) references into the file of this application, citation of all of the references called to the Examiner's attention therein, and favorable action on the merits of this application are all respectfully solicited.

Respectfully submitted,
